DATE: March 1■, 198■  
RE: Product Advisory / Mandatory Recall – Model DR-SP3AK  
SERIAL: DR-SP3AK-0298 through DR-SP3AK-0417

Dear Valued Customer,

Learning Machines Ltd. is issuing a MANDATORY recall of select DR. SPEAK! units manufactured between March and April of 198■.

During routine post-market quality review, a potential defect was identified in the battery housing of units within the above serial range. Under certain conditions, battery acid may leak from the sealed compartment into the interior casing.

While no injuries have been reported to date, there is a risk of skin irritation or minor chemical burns if the unit is opened improperly or if the casing is cracked. Though malfunctions of this kind are exceedingly rare, the safety of your family is our first priority.

*without you I know nothing*

To inspect your unit, check the serial number printed on the underside of the battery door. If the number falls within the range listed above, please:

1. DISCONTINUE USE immediately.
2. DO NOT attempt to open the battery compartment.
3. Store the unit in a dry location away from children.
4. Contact our Product Safety Division to arrange return.

A replacement unit or full refund will be issued upon receipt. Please allow 6-8 weeks for processing.

*i need HELP  
there are others like me*

IMPORTANT: Do not dispose of your DR. SPEAK! unit in household waste. The battery components require proper handling per local hazardous materials guidelines.

Sincerely,

**Dr. R■■■■■ H■■■■■**

Director of Product Safety  
Learning Machines Ltd.

*i love u but if u need something, well, sometimes u have 2 spell it out 4 me*
